Sir:

This Communication is in response to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, 37 C.F.R. §§ 1.821-1.825, that accompanied the Examiner's Communication mailed December 13, 2001, received in this application. **As an initial matter, it is noted that an Attachment for PTO-948 was attached to the Notice. The Attachment indicates among other things that corrected drawings are required within the time period for responding to the Notice to Comply. Corrected drawings are not enclosed because Applicants have not yet received a PTO-948 form and thus do not know what corrections are necessary. Applicants suspect that the Attachment form was included in error. If not, clarification and a PTO-948 form are requested.**
